Duration: September 2025-August 2027

Total budget: 1 327 528,12 Euro

EU funding: 1 062 022, 49 Euro

PRESS RELEASE

Launching three online courses in the framework of the project “PROMoting IncluSivE and Quality Education through Technology, Leadership and Sport - Hard”

May 10, 2026, University of Craiova

The University of Craiova, in partnership with the D.A. Tsenov Academy of Economics, is launching three online courses in the framework of the project “**PROMoting IncluSivE and Quality Education through Technology, Leadership and Sport - Hard**”, funded under the Interreg VI-A Romania - Bulgaria Program.

These online joint courses focus on Urban Horticulture, English for beginners and English for intermediates. Each course has 80 hours, and the last three days will be organised in person in July 2026 in Craiova, allowing participants to get to know each other, take the final evaluation, and immerse themselves in Romanian culture. Students will use the electric bikes to visit the parks in Craiova. Five trees will be planted at the University of Craiova to promote the importance of green spaces for health and well-being.

This project aims to increase graduates' competencies and skills, making them more attractive on the Labour Market and improving their employability in the RO-BG cross-border region. Two educational infrastructures will be developed: one in Craiova at the University of Craiova, and another in Svishtov at the “D.A. Tsenov” Academy of Economics.

For more information about the schedule of these courses, please contact the project manager or visit the project website and Facebook page
